ClearVue Technologies finalist at CAPS

Perth, Western Australia: 14th June 2016 – Mr. Victor Rosenberg, Executive Chairman of ClearVue Technologies Ltd is pleased to advise that ClearVue Technologies is a finalist for [Climate Adapted People Shelter \(CAPS\)](#) initiative.

Participating stakeholders include [UTS](#), [Ashfield LGA](#), [Parramatta LGA](#), [Sydney Buses](#), [AdShel](#).

CAPS mission is to improve living standards by applying our core IP of “solar glass”.

The CAPS initiative enables us to learn about the effects of global warming on:

- public bus transport commuters,
- communities (urban design),
- the vulnerable demographics in our communities who depend on public transport.

The winner will be announced at the final ceremony, details below:

- When: 12 noon - 3.00pm, Thursday, June 16
- Where: Joan Sutherland Performing Arts Centre, Penrith

The overall winning team will work with the relevant council to refine, build and install their design, using up to \$25,000 of the funding from:

- the Office of Environment and Heritage, and
- the Environmental Trust.

About ClearVue Technologies

ClearVue Technologies is at the forefront of advanced glazing technologies. Using a patented nano technology solution, ClearVue has the ability to generate electricity from a flat sheet of glass whilst maintaining the transparency of the glass.

Our technology presents a paradigm shift in the way glass will be used in building construction, automobiles, agriculture and specialty products. Glass will no longer just be a component of construction, glass now has the potential to be renewable energy resource.

Our Vision – We see a world where consumers are part of the energy solution.
