ClearVue Technologies Continues Product Development with larger Window

Perth, Western Australia: 18th August 2016 – Mr. Victor Rosenberg, Executive Chairman of ClearVue Technologies Ltd presents the first 1200 x 600 mm factory produced window. This window is now suitable for larger scale commercial applications.

Mr. Rosenberg said “importantly the window maintains the integrity of the energy being produced whilst keeping the high level of transparency and insulation properties. This is a first for the sector and we are very proud of the team.”

More detailed information to follow over time.

Mr. Victor Rosenberg and Prof. Kamal Alameh standing with the new ClearVue frame.

About ClearVue Technologies

ClearVue Technologies is at the forefront of advanced glazing technologies. Using a patented nano technology solution, ClearVue has the ability to generate electricity from a flat sheet of glass whilst maintaining the transparency of the glass.

Our technology presents a paradigm shift in the way glass will be used in building construction, automobiles, agriculture and specialty products. Glass will no longer just be a component of construction, glass now has the potential to be renewable energy resource.

Our Vision – We see a world where consumers are part of the energy solution.
