

ClearVue<sup>PV</sup>

ASX Announcement – 14 November 2018

## ASX Release | ClearVue Technologies Limited (ASX: CPV)

### ClearVue Launches its High-Tech Products to North American Market

#### Highlights

- ClearVue to participate at the Greenbuild Expo 2018 in Chicago 14-16 November 2018
- Greenbuild Expo 2018 represents the first time a commercial-ready version of ClearVue's technology will be shown in North America
- Greenbuild is a leading construction industry trade show with a focus on green and renewable construction

**14 November 2018:** Smart building materials company ClearVue Technologies Limited (ASX:CPV) ("**ClearVue**" or "**the Company**") is pleased to announce it will be launching its technology and products for the North American market at the Greenbuild Expo 2018 in Chicago, Illinois, USA 14-16 November 2018. This will be the first time a commercial-ready version of ClearVue's technology and product will have been shown in the United States of America.

The Greenbuild Conference and Expo trade show is the world's largest conference and expo dedicated to green building. The Expo is focused on introducing the construction industry to the most innovative developments in green and renewable building technologies and products.

The last Greenbuild Expo in 2017 was attended by 24,731 attendees from 96 countries and attracted 703 exhibitors from more than 80 product categories.

Commenting on the Greenbuild trade show, ClearVue Executive Chairman Victor Rosenberg said:

*“The Greenbuild Expo is one of the leading green and renewable construction shows in the world and a great opportunity to showcase the ClearVue products and technology. We expect that similar to the Glasstec show in Dusseldorf - which attracted significant interest and new collaboration opportunities for ClearVue in Europe and beyond - this US show will significantly raise our profile in the North American markets as one of the technology leaders in the area of solar PV glazing and building integrated photovoltaics. I look forward to keeping our shareholders and the market updated as the show progresses and at our upcoming AGM at the end of this month.”*

**About ClearVue Technologies Limited**

ClearVue Technologies Limited (ASX: CPV) is an Australian technology company that operates in the Building Integrated Photovoltaic (BPIV) sector which involves the integration of solar technology into building and agricultural industries, specifically glass and building surfaces, to provide renewable energy. ClearVue has developed advanced glass technology that aims to preserve glass transparency to maintain building aesthetics whilst generating electricity.

Solar PV cells are incorporated around the edges of an Insulated Glass Unit (IGU) used in windows and the lamination interlayer between the glass in the IGU incorporates ClearVue’s patented proprietary nano and micro particles, as well as its spectral selective coating on the rear external surface of the IGU.

ClearVue's window technology has application for use in the building and construction and agricultural industries (amongst others).

ClearVue has worked closely with leading experts from the Electron Science Research Institute, Edith Cowan University (ECU) in Perth, Western Australia to develop the technology.
