

ClearVue^{PV}

ASX Announcement – 21 February 2019

ASX Release | ClearVue Technologies Limited (ASX: CPV)

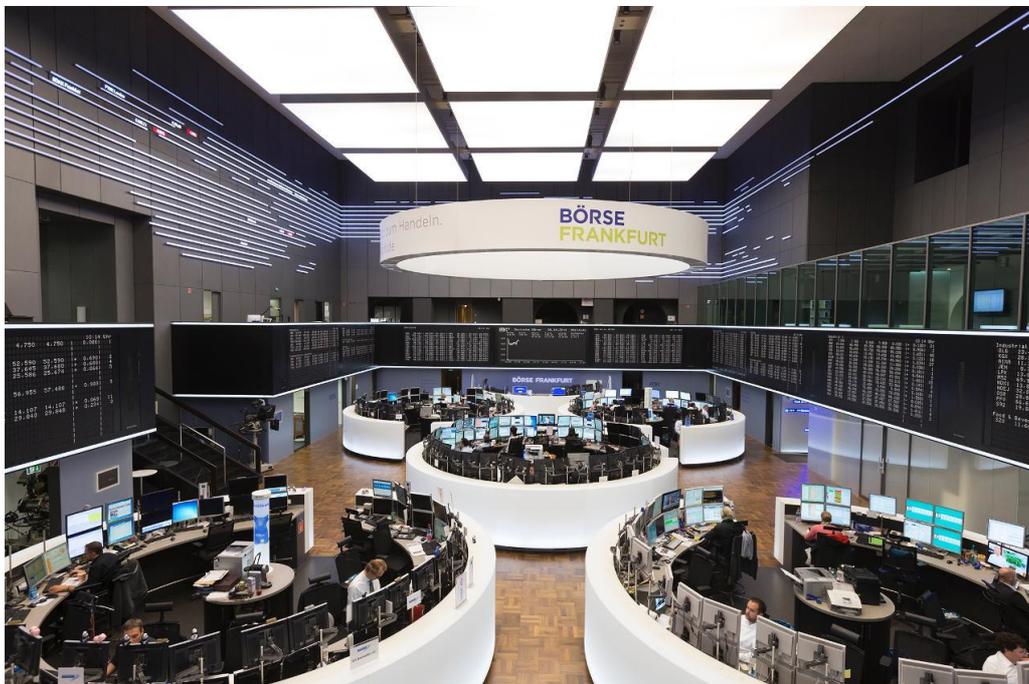

ClearVue Technologies secures listing on Frankfurt Stock Exchange

Highlights:

- ClearVue now listed on the Frankfurt Stock Exchange, the most prominent exchange in Germany
- Listing on Frankfurt exchange gives ClearVue exposure to significant European investor audience, who can now freely trade ClearVue securities on a local exchange and in a preferred time zone
- ClearVue to increase its profile in the European market as it expands its sales and marketing activities in the region
- WKN code A2PDU9

21 February 2019: Smart building materials company ClearVue Technologies Limited (ASX:CPV) ("**ClearVue**" or "**the Company**") is pleased to advise that it has secured a listing on the Frankfurt Stock Exchange, under WKN code A2PDU9 (ISIN: AU0000003816).

The listing of ClearVue securities on the Frankfurt Stock Exchange, recognised as one of the leading exchanges in the region, provides the Company access to a large European investor audience, who can now trade ClearVue securities on a local exchange and time zone.

Commenting on the Frankfurt listing, ClearVue Executive Chairman Victor Rosenberg has said:

“Following the launch of our technology and products for the European market at Glasstec 2018 in Dusseldorf, Germany 23-26 October 2018, we have experienced high levels of interest, from both a product and investment perspective in the European market.”

To capitalise on this, we prioritised a listing of our securities on a prominent German exchange as soon as practical in 2019.

With the Frankfurt listing now in place we now provide local European investors the opportunity to invest in the company so as to gain exposure to our commercial success in the region.

The listing of our securities on the Frankfurt Stock Exchange will provide European investors the opportunity to trade our securities on a local exchange in a suitable timezone”.

About ClearVue Technologies Limited

ClearVue Technologies Limited (ASX: CPV) is an Australian technology company that operates in the Building Integrated Photovoltaic (BPIV) sector which involves the integration of solar technology into building and agricultural industries, specifically glass and building surfaces, to provide renewable energy. ClearVue has developed advanced glass technology that aims to preserve glass transparency to maintain building aesthetics whilst generating electricity.

Solar PV cells are incorporated around the edges of an Insulated Glass Unit (IGU) used in windows and the lamination interlayer between the glass in the IGU incorporates ClearVue's patented proprietary nano and micro particles, as well as its spectral selective coating on the rear external surface of the IGU.

ClearVue's window technology has application for use in the building and construction and agricultural industries (amongst others).

ClearVue has worked closely with leading experts from the Electron Science Research Institute, Edith Cowan University (ECU) in Perth, Western Australia to develop the technology.
